

Welcome

Thank you for your recent course booking at our Training Centre in Newcastle.

We will endeavor to exceed your expectations and trust that by attending the course you will get a real benefit back in the workplace.

You will have received an email with specific information which you may find useful, if however you require any further information prior to your course please do not hesitate to contact ourselves.

Our course times are: Monday to Thursday 09.30 - 16:30, Friday 08:30 - 12:30

- Coffee and registration is between: Monday to Thursday 09.00 - 09:15, Friday 08:15 - 08:25
- All refreshments and lunch will be provided for the duration of the course

If you are undertaking any examinations whilst here, you will need to bring with you photographic identification such as a passport or driving license on the first day of your course. Should this pose a problem then please give us a call to discuss your options.

City & Guilds, and EAL Courses

Online written examinations for C&G 2391-50, 2391-51, 2391-52 & 2392-10 will be completed during the week's course, or if preferred deferred to a mutual convenient date.

Any practical examination(s) as part of your course with either C&G or EAL, are not conducted during the course and must be arranged separately for you to reattend the Training Centre and complete.

If you have ever been registered with City & Guilds before you should have an enrolment number which will consist of 3 letters then 4 numbers i.e. ABC1234. We will require this to keep your records up to date. If this is your first City & Guilds course you will be automatically assigned an enrolment number.

It would also be useful if you bought a pencil, rubber and ruler along with you.

Areas of Training

Don't forget Technique Learning Solutions Ltd provide many courses for engineers and technicians. See below for a reminder of the areas in which we provide training

- Practical Electrical Wiring and Maintenance Courses from 2 to 6 weeks
- Air Conditioning and Refrigeration Installation and Maintenance
- Programmable Logic Controllers (All Manufacturers Makes and Models, from Beginner to Advanced) for the maintenance engineer, operator or programmer.
- City and Guilds 2377-77 – In-service Inspection and Testing of Electrical Equipment (PAT) – 2 Day
- City and Guilds 2382-18 18th Edition Wiring Regulations 3 days
- City and Guilds 2391-50, 2391-51 & 2391-52 Inspection, Testing & Certification of Electrical Installations 5 days
- City and Guilds 2079 F Gas Handling Refrigerants / F gas
- Fire Alarms BS 5839:2002
- Emergency Lighting BS 5266:1999
- SCADA training, from operator awareness to the design and commissioning of systems.

Many more courses are available. Please Note: We are also approved for Enhanced Learning Credits.

Clearly, it is not always possible to meet people prior to the commencement of the course, because we have delegates from right across the U.K, so we encourage you to phone us if there are any areas of the course you want us to pay particular attention to. Whilst all our courses are based on syllabus frameworks we are determined to try and make sure you get exactly what you need from our course.

At the end of the course we ask that you complete, honestly, a course review. This gives us relevant feedback from delegates and helps us to manage the quality of the course content and associated materials and equipment. Please use this opportunity to help us.

Once again, Thank you for booking with Technique Learning and should you have any further queries or require any further information, please do not hesitate to contact us.
